Summary Report
The Security Council held its annual session to consider the following agenda items:

1. The Situation in Iraq
2. Measures to Combat Terrorism in Africa

The session was attended by representatives of 14 countries.

During its first session, the committee adopted the agenda in the order of I, II, III beginning discussions on the topic of The Situation in Iraq. Fruitful discussions and several speeches on the topic at hand were delivered by many Member States of the Security Council. However, soon after the third session began, the committee was presented with several news articles and cables about an ongoing conflict in Yemen. Due to the urgency of the situation, the Council unanimously decided to amend the agenda and initiated debate on The Situation in Yemen. The body started drafting two working papers and one presidential statement. While one of the working papers concentrated on handling military involvement, the second working paper addressed humanitarian aid. A representative of the government of Yemen was invited by the Council to discuss Yemen’s stance and policy regarding the current situation. The Council adopted one presidential statement and two resolutions addressing the conflict in Yemen. The presidential statement adopted by consensus recognizes the legitimacy of the current Yemeni government and condemns the actions of the rebels. Resolution 1/1 emphasizes the need for humanitarian aid and education for refugees, displaced persons, and the entire Yemen population. Resolution 1/2 focus concentrates on military and government cooperation, and establishes the United Nations Mission for Assistance in Yemen (UNMAY).

After addressing The Situation in Yemen, the Council resumed its talks on The Situation in Iraq, and drafted 3 resolutions that were later considered by the body. Resolution 2/1 focused on humanitarian aid while Resolution 2/2 addressed border security and cooperation with the Iraqi government. Both of them were adopted by acclamation. Finally, Resolution 2/3 sought out to dismantle ISIL with military force and economic sanctions and was adopted by 13 votes in favor and 1 abstention.

## Presidential Statement

“The Security Council condemns the use of force and violence by the Houthis to achieve political power, and fully supports targeted sanctions against Houthi military commanders who are involved in actions that violate the legitimate power of the government.

"The Security Council acknowledges the legitimacy of the government of President Abd Rabbuh Mansur Hadi and rejects the actions perpetrated by the Houthis and Al-Qaida in the Arabian Peninsula (AQAP) against the legitimate power of the President Hadi. The Council discourages all state and non-state actors from providing financial or technical assistance to the Houthi rebels.

"The Security Council, in accordance to Security Council resolution 2201 (2015), proposes the acceleration of an UN-brokered dialogue regionally mediated by the Gulf Cooperation Council (GCC) taking into consideration previous lack of compliance on the side of the rebels.

"The Security Council acknowledges that the objective of the UN-brokered open dialogue is to promote conversations that can ensure the long term sustainability of peace in Yemen while addressing the immediate conflict at hand. The Council pleads with all stakeholders in Yemen, including the Houthi rebels to participate in peaceful talks in order to restore stability in the country. Once the legitimate government has been reinstated, peaceful talks will continue to take place to further enhance political integration and stability.

"The Security Council urges the Houthis to adhere to the Peace and National Partnership Agreement (PNPA) formulated on September 21, 2014. The Council will broker peace talks for as long as the Houthis adhere to the PNPA. Furthermore, the Council recommends the formation of a conference similar in nature with the National Dialogue Conference which ended in January 14, 2014. By doing so, the Security Council highlights the importance of including the Houthis, the Southern Separatist Movement (Hirak), and the youth, in the dialogue initiative that will be brokered by the UN. Peaceful talks can be employed as means to end the underlying sectarian tension in Yemen.”
