

2025 NMUN-DC Awards

Philosophy: National Model United Nations (NMUN) advances understanding of the UN and contemporary international issues and has positively impacted the lives of numerous delegates. We urge all delegates and their faculty advisors to maintain an appropriate perspective regarding the awards. No one can observe every action in committee or truly judge an individual's learning and growth. The fundamental basis of the simulation is collaboration and cooperation among nations, which includes working together through multilateral diplomacy. There are no winners and certainly no losers in this process. We believe participation in the simulation is its own reward.

Criteria: The Secretariat uses established [awards criteria](#) to select award recipients. Each element – remaining in character, participating in committee, and proper use of the rules of procedure – is equally important to the overall awards determination process. All committees are weighted equally. Delegations are rated with a mathematical formula in relation to the total number of committees represented by the school.

Types: All awards are listed in alphabetical order (not ranked).

- Overall Delegation Awards (Outstanding, Distinguished, and Honorable Mention) are based on work at NMUN.
- Outstanding Position Paper Awards are given to recognize pre-conference preparation.
- Outstanding Delegates in Committee Awards are selected by vote of the delegates in each committee.
